EZH2 gain-context profiles of the four candidate genes
Peeters 2024 / GSE262130 | fixed candidates; authors' selected-gene matrix
Tigit
Prdm1
Ccr2
Igfbp4
Published rlog expression
WT fresh
Y641F fresh
WT day 4
Y641F day 4
Dots: recorded libraries (3/group), not verified independent mice. Black bars: means.
Fresh sorting versus four-day culture; no paired trajectories or population inference.
