Hamanaka | R2 native peak areas

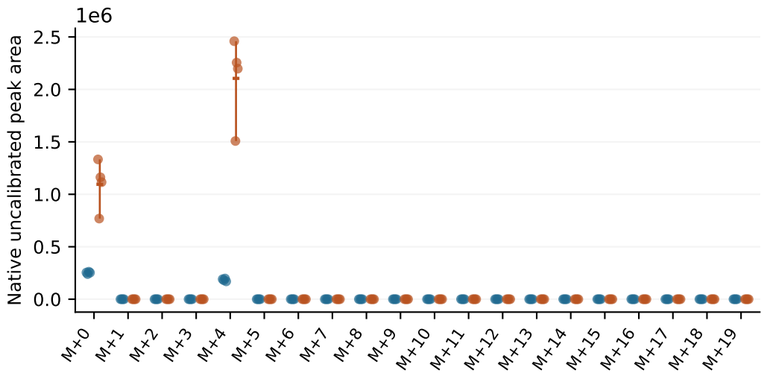

Unstacked supplied dots; means and observed ranges only at full supplied n. × marks a held summary, not zero.

No biological inference. 4F retains three source labels per condition; other panels retain four.

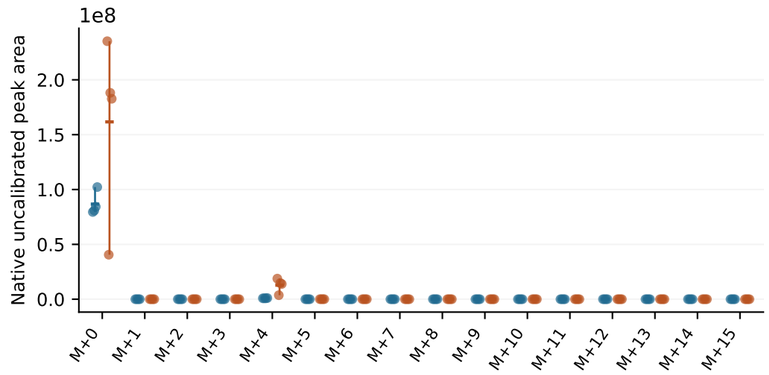

3F_Citrulline | Citrulline
Natural abundance corrected peak area
Held channel summaries: 0

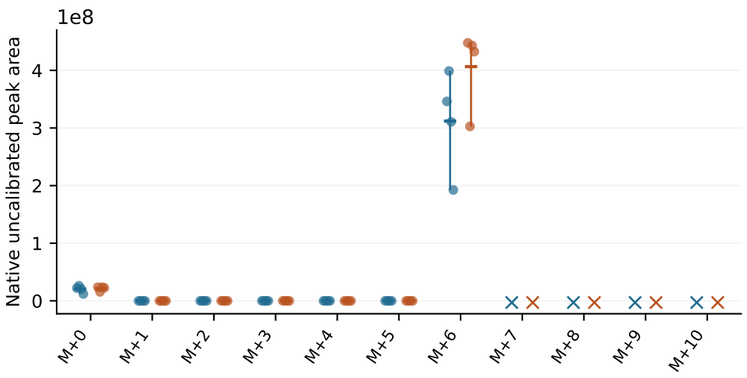

3F_Argininosuccinate | Argininosuccinate
Natural abundance corrected peak area
Held channel summaries: 0

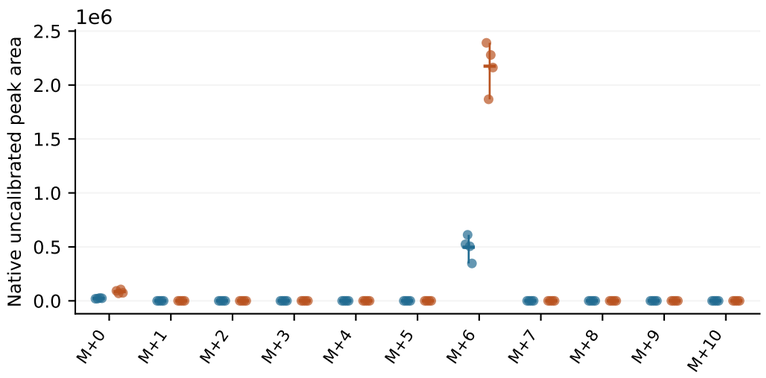

3F_Arginine | Arginine
Natural abundance corrected peak area
Held channel summaries: 0

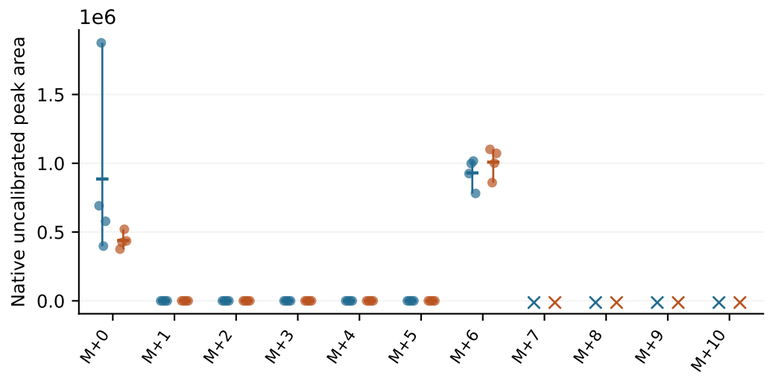

4B_Arginine | Arginine
Natural abundance corrected peak area
Held channel summaries: 8

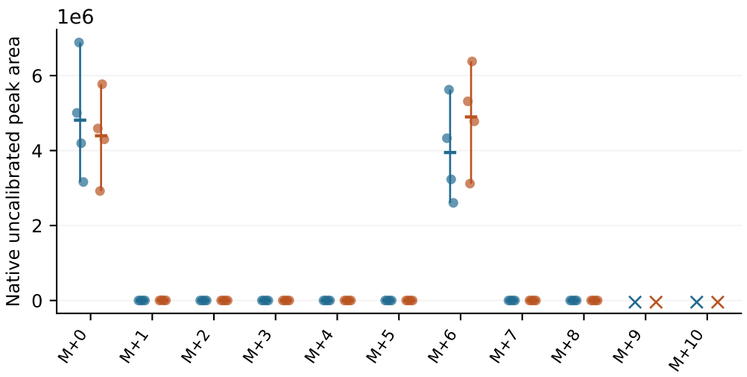

4B_Argininosuccinate | Argininosuccinate
Natural abundance corrected peak area
Held channel summaries: 0

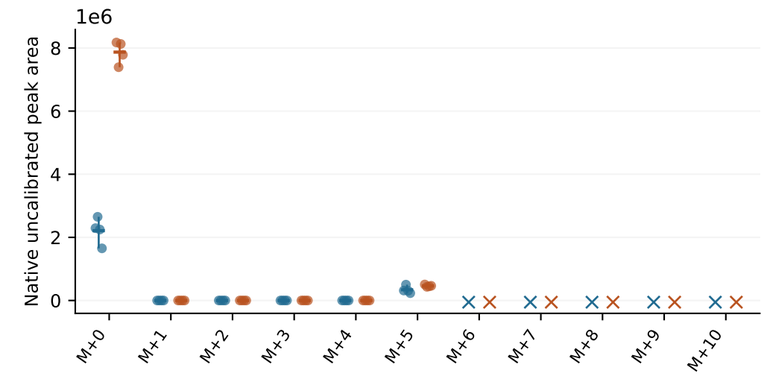

4B_Citrulline | Citrulline
Natural abundance corrected peak area
Held channel summaries: 8

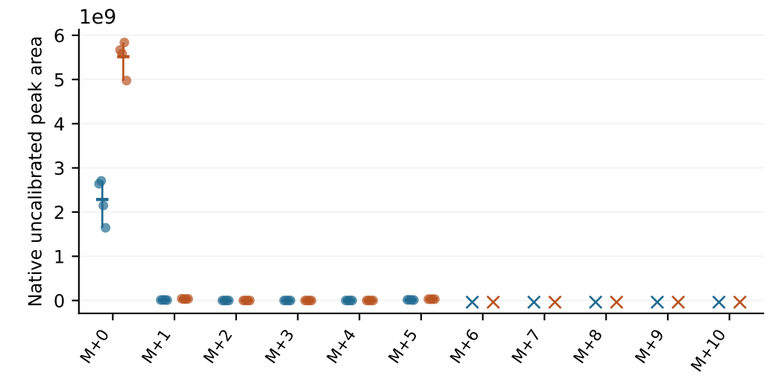

4B_Dimethylarginine | Dimethylarginine
Natural abundance corrected peak area
Held channel summaries: 4

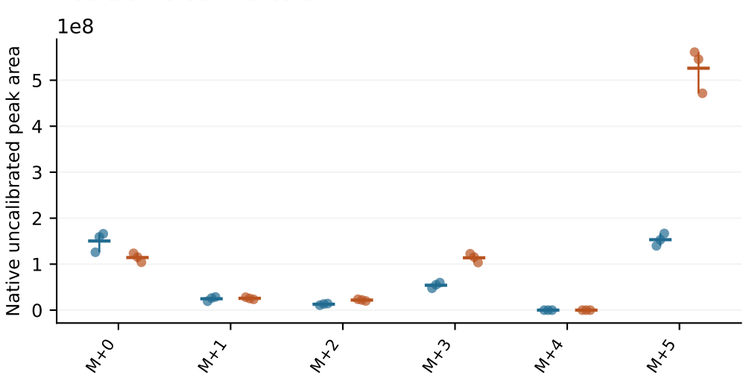

4B_Ornithine | Ornithine
Natural abundance corrected peak area
Held channel summaries: 10

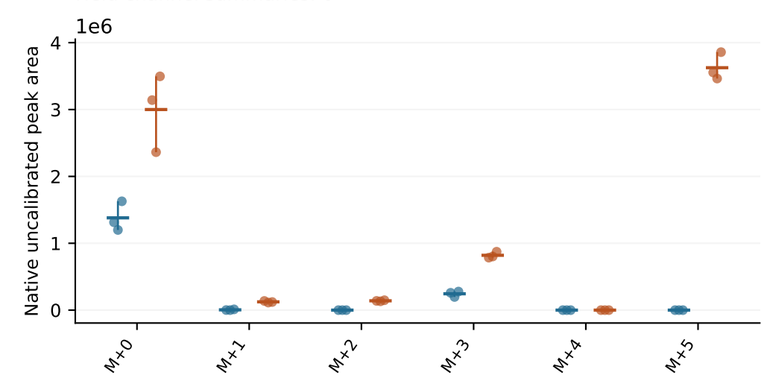

4B_Proline | Proline
Natural abundance corrected peak area
Held channel summaries: 10

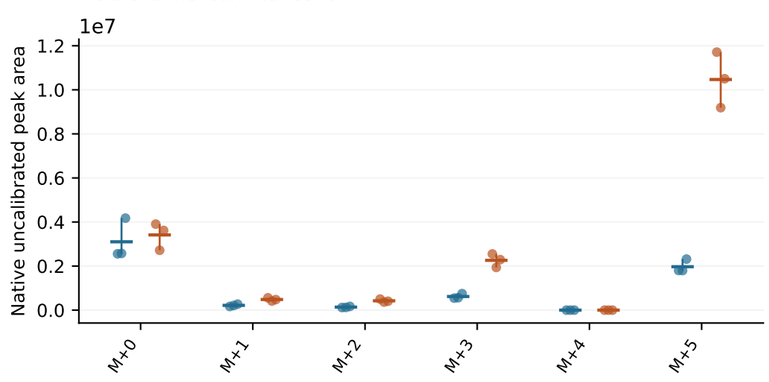

4F_Glutamate | Glutamate
Peak Area
Held channel summaries: 0

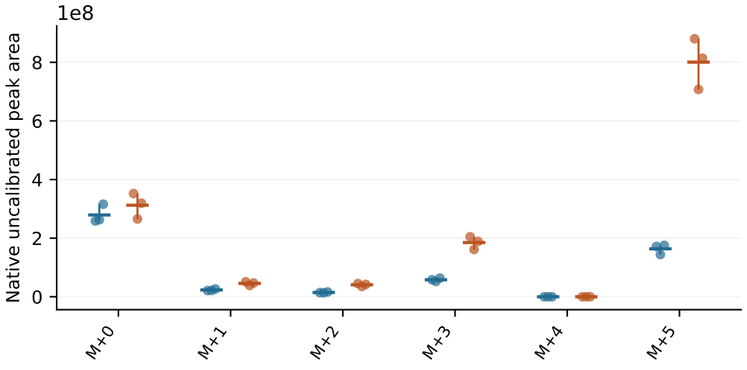

4F_P5C | P5C
Peak Area
Held channel summaries: 0

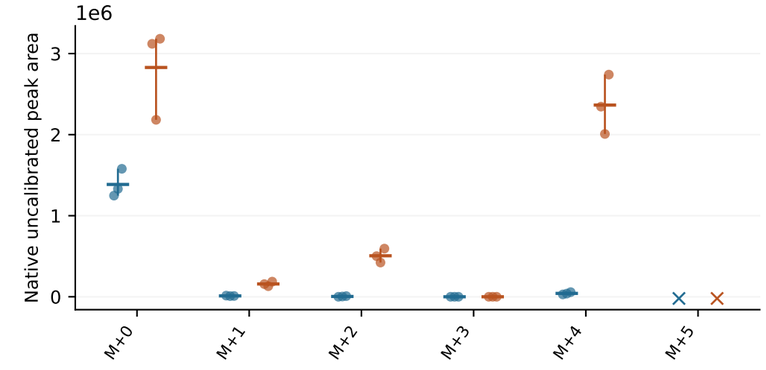

4F_Ornithine | Ornithine
Peak Area
Held channel summaries: 0

4F_Proline | Proline
Peak Area
Held channel summaries: 0

4F_Putrescine | Putrescine
Peak Area
Held channel summaries: 2
