Hamanaka | R2 reported percentages

Unstacked supplied dots; means/ranges only at full supplied n. × = held summary, not zero. No biological inference. 4F: three supplied labels/condition.

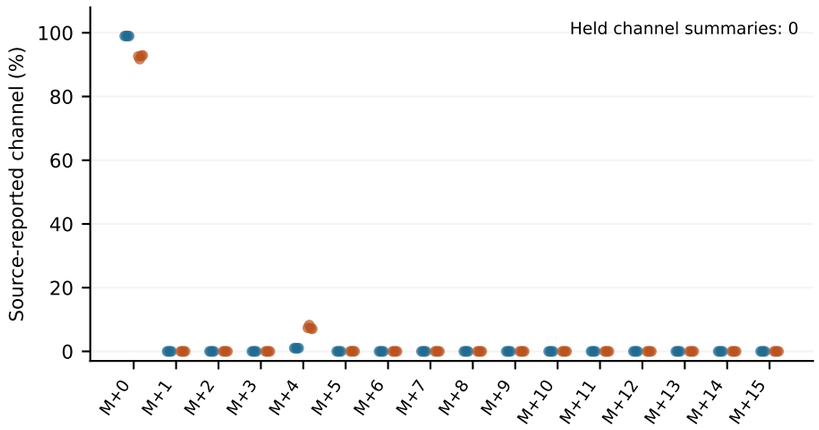

3F_Citrulline | Citrulline
Complete supplied vectors 8/8; normalization not validated

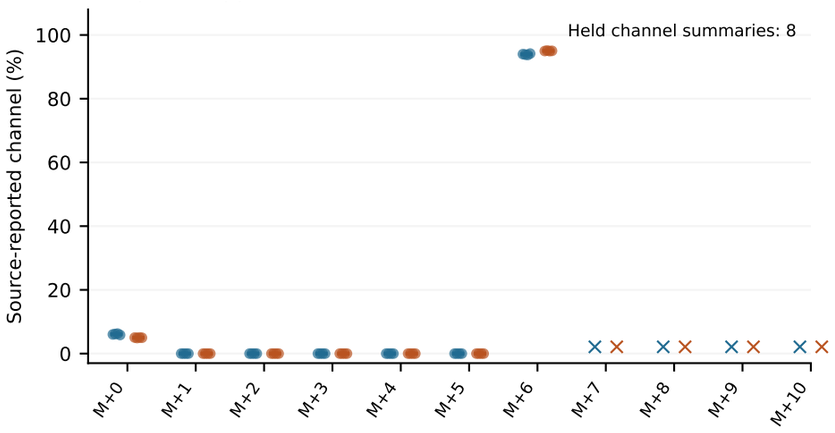

3F_Argininosuccinate | Argininosuccinate

Fraction map held
Duplicated source isotope headers

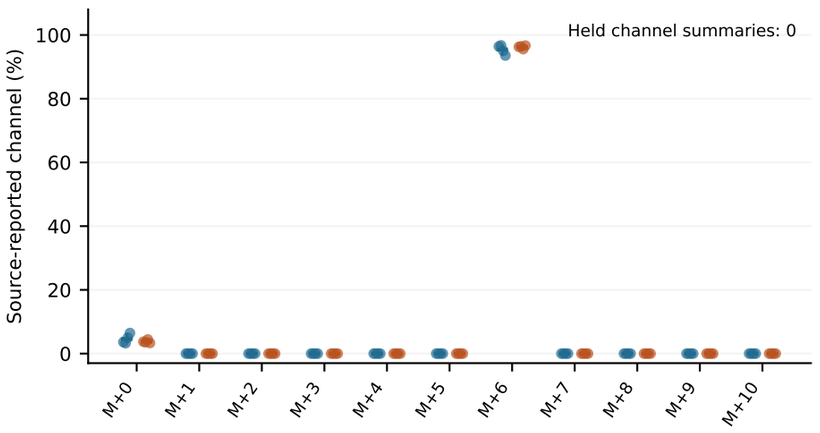

3F_Arginine | Arginine
Complete supplied vectors 8/8; normalization not validated

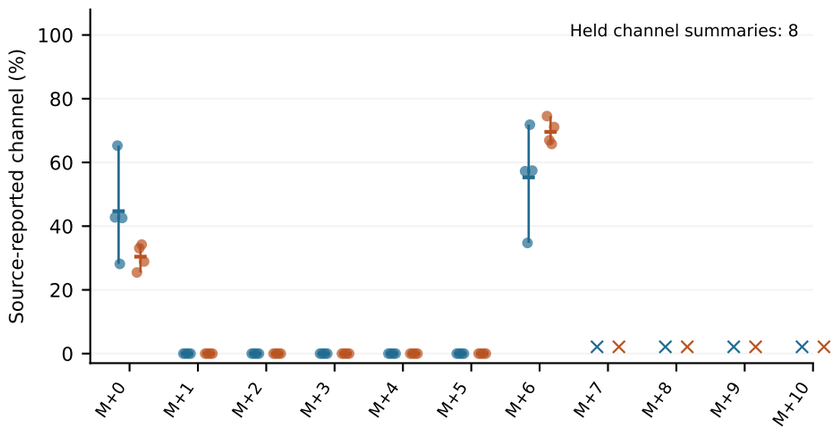

4B_Arginine | Arginine
Complete supplied vectors 0/8; normalization not validated

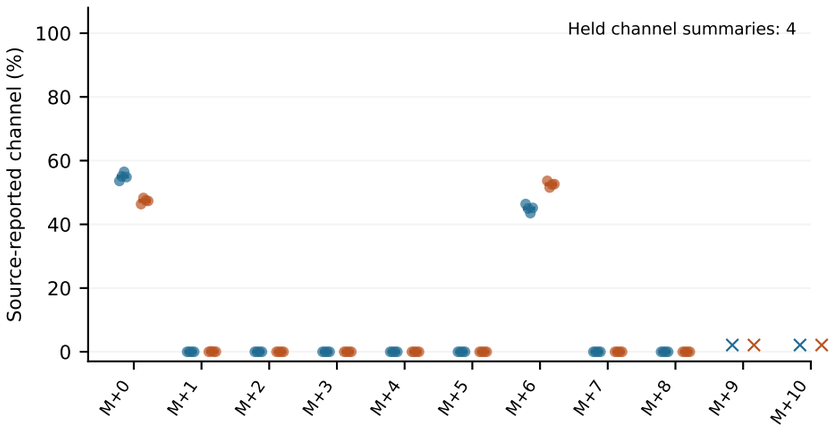

4B_Argininosuccinate | Argininosuccinate
Complete supplied vectors 8/8; normalization not validated

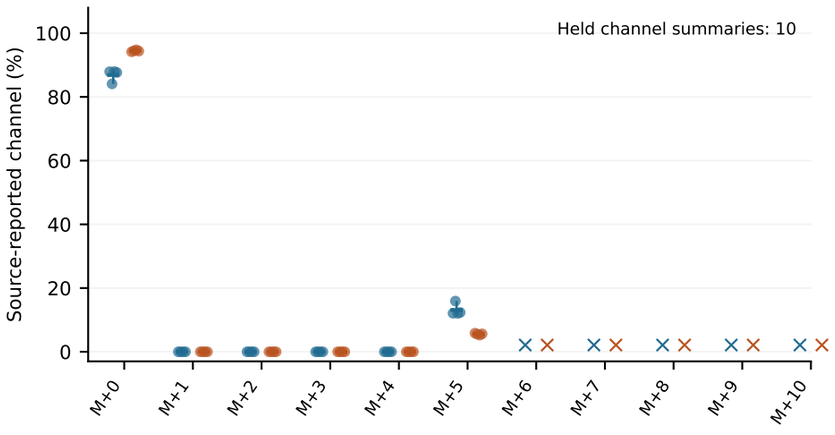

4B_Citrulline | Citrulline
Complete supplied vectors 0/8; normalization not validated

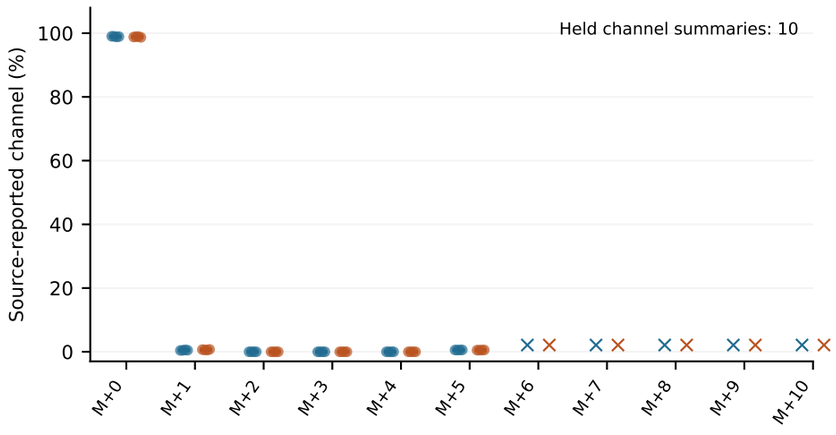

4B_Dimethylarginine | Dimethylarginine
Complete supplied vectors 0/8; normalization not validated

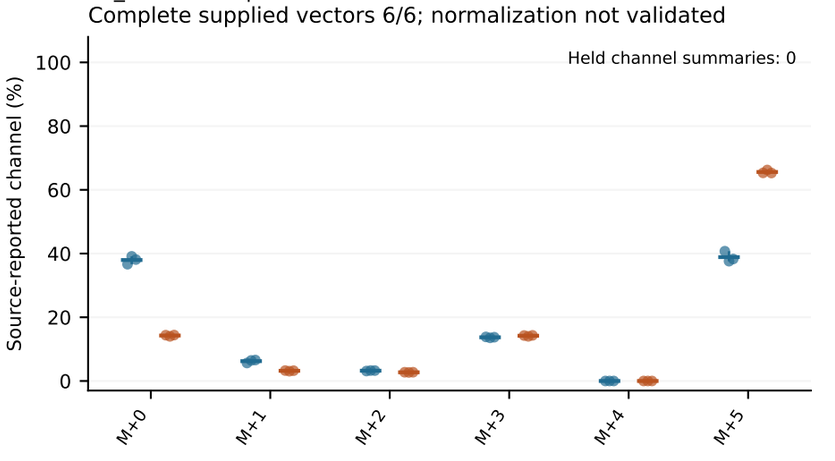

4B_Ornithine | Ornithine
Complete supplied vectors 0/8; normalization not validated

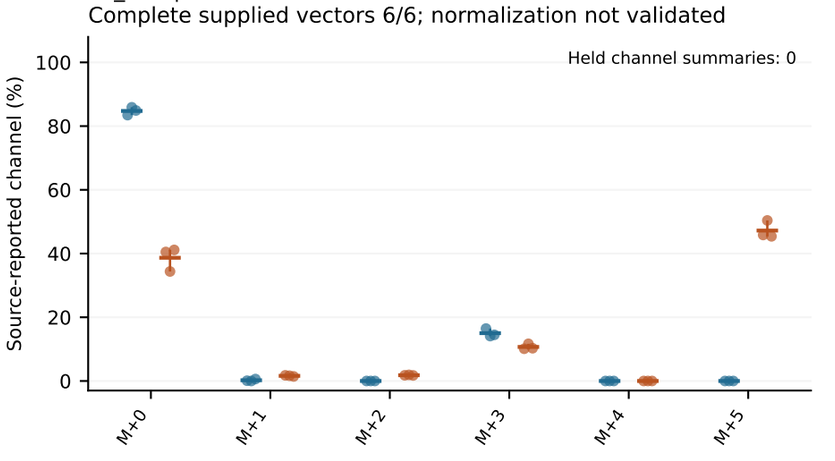

4B_Proline | Proline
Complete supplied vectors 0/8; normalization not validated

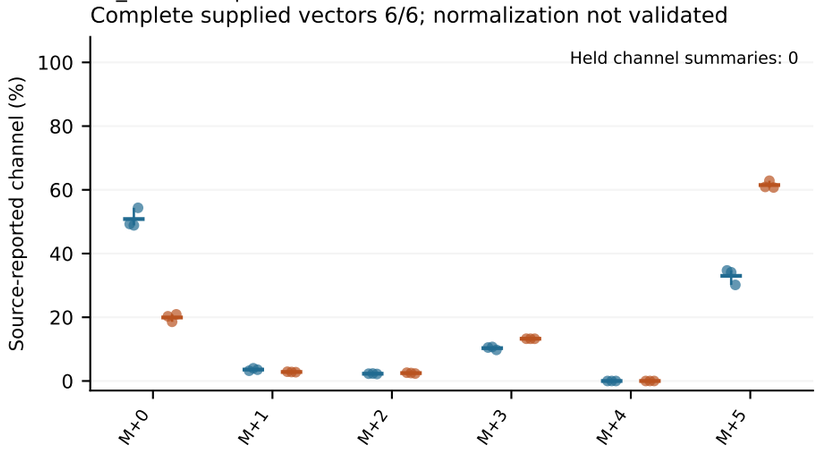

4F_Glutamate | Glutamate
Complete supplied vectors 6/6; normalization not validated

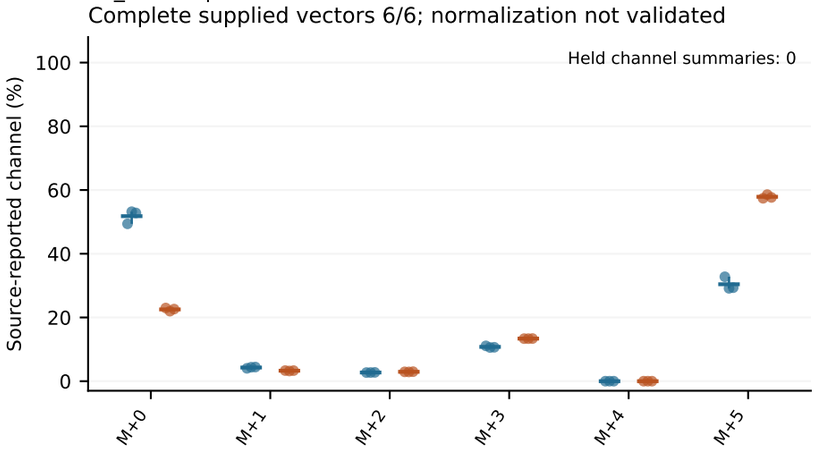

4F_P5C | P5C
Complete supplied vectors 6/6; normalization not validated

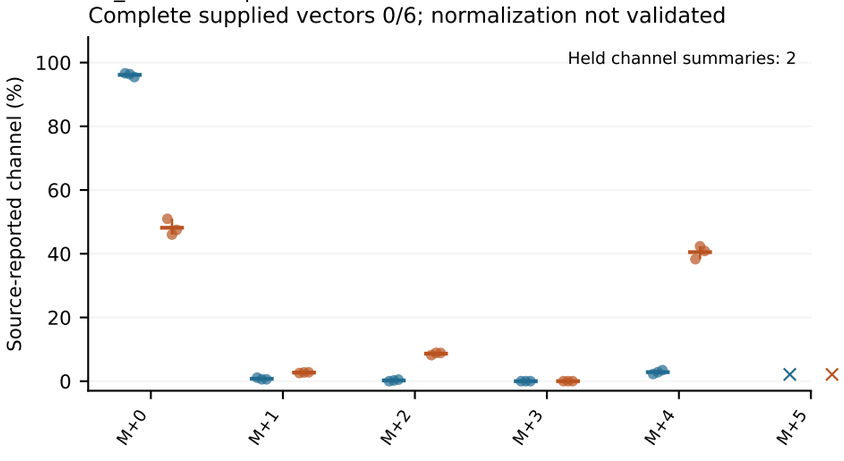

4F_Ornithine | Ornithine
Complete supplied vectors 6/6; normalization not validated

4F_Proline | Proline
Complete supplied vectors 6/6; normalization not validated

4F_Putrescine | Putrescine
Complete supplied vectors 0/6; normalization not validated

UT TGF-beta
