Hamanaka | R2 reported percentages
Unstacked supplied dots; means and observed ranges only at full supplied n. × marks a held summary, not zero.
No biological inference. 4F retains three source labels per condition; other panels retain four.

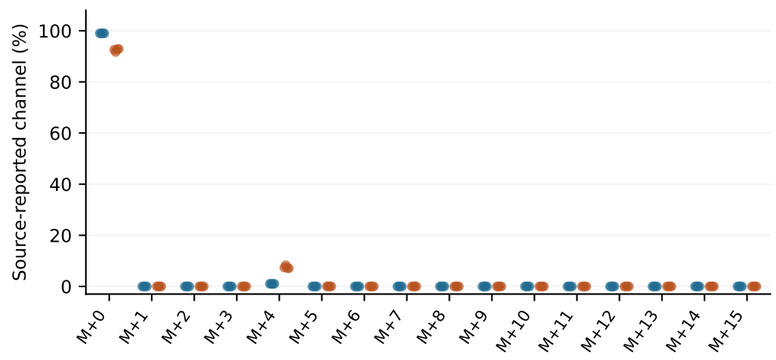

3F_Citrulline | Citrulline
Complete supplied vectors: 8/8
Normalization not validated; held summaries: 0

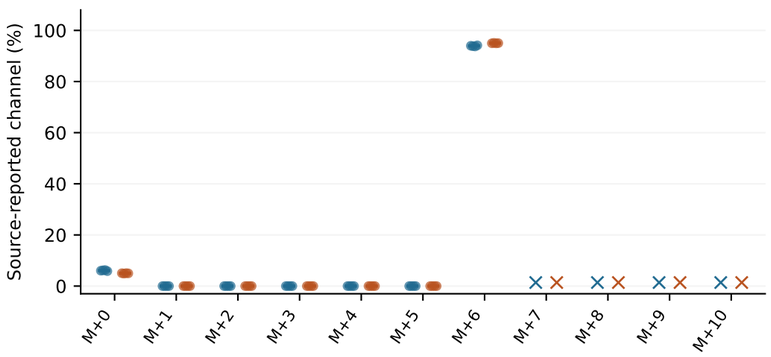

3F_Argininosuccinate | Argininosuccinate

Fraction map held
Duplicated source isotope headers

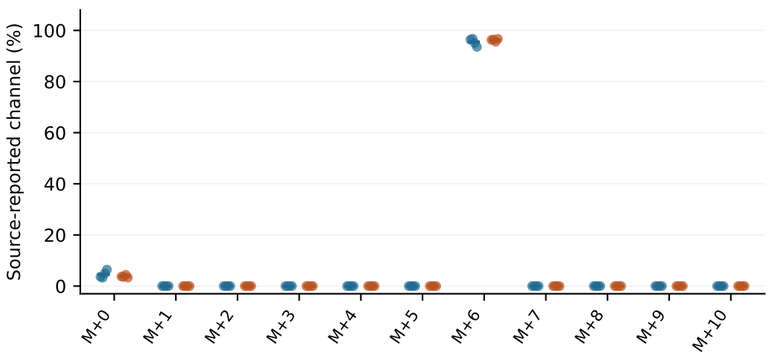

3F_Arginine | Arginine
Complete supplied vectors: 8/8
Normalization not validated; held summaries: 0

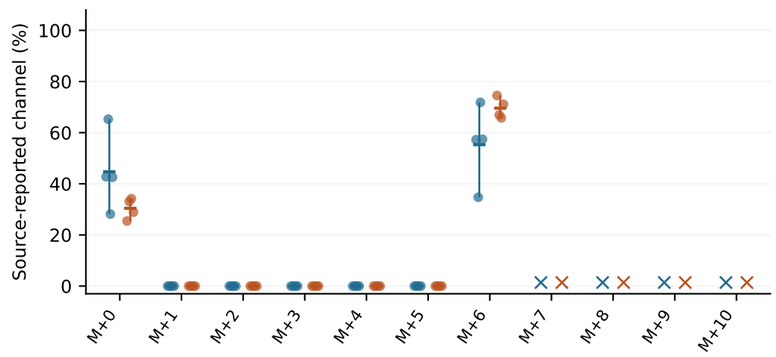

4B_Arginine | Arginine
Complete supplied vectors: 0/8
Normalization not validated; held summaries: 8

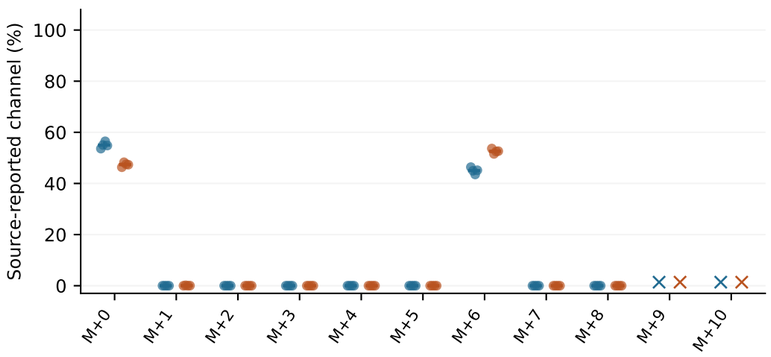

4B_Argininosuccinate | Argininosuccinate
Complete supplied vectors: 8/8
Normalization not validated; held summaries: 0

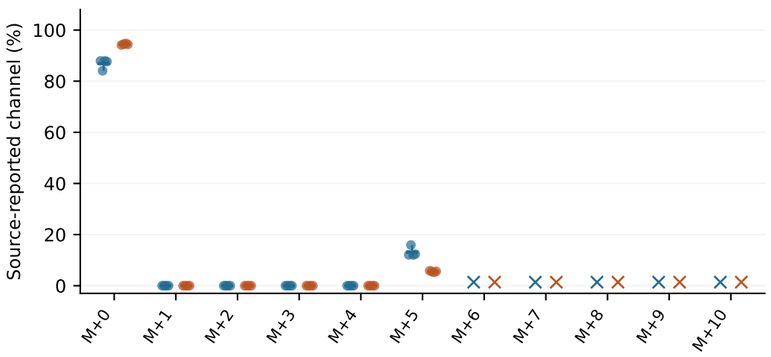

4B_Citrulline | Citrulline
Complete supplied vectors: 0/8
Normalization not validated; held summaries: 8

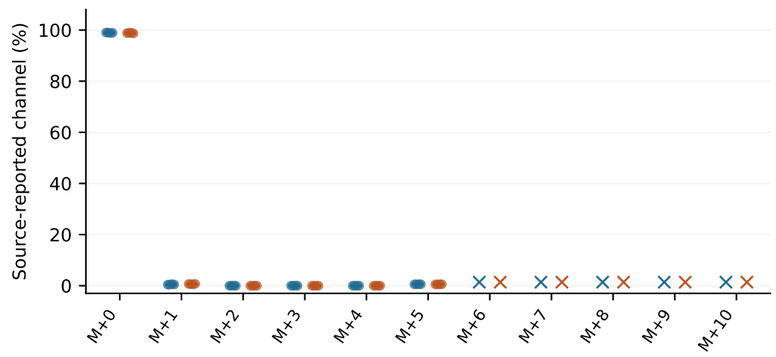

4B_Dimethylarginine | Dimethylarginine
Complete supplied vectors: 0/8
Normalization not validated; held summaries: 4

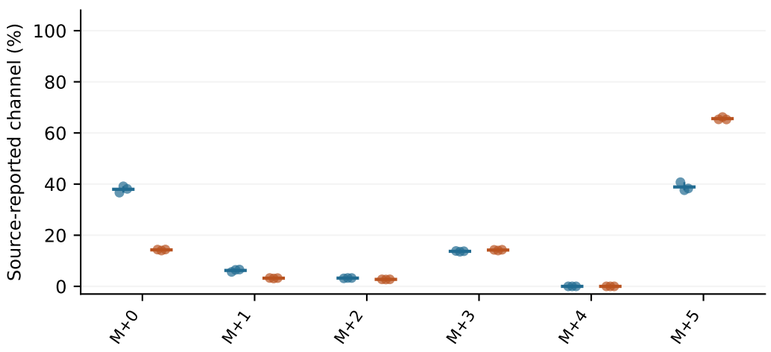

4B_Ornithine | Ornithine
Complete supplied vectors: 0/8
Normalization not validated; held summaries: 10

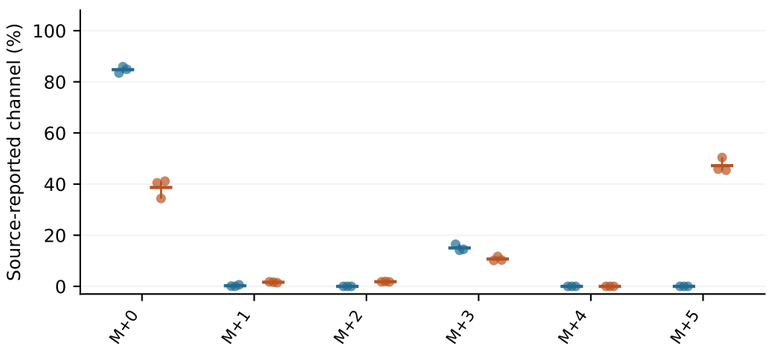

4B_Proline | Proline
Complete supplied vectors: 0/8
Normalization not validated; held summaries: 10

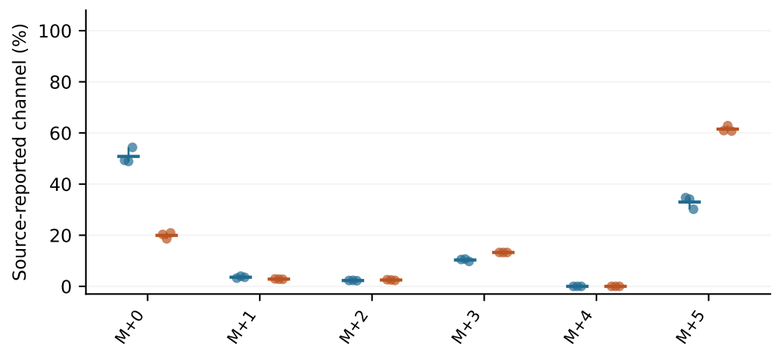

4F_Glutamate | Glutamate
Complete supplied vectors: 6/6
Normalization not validated; held summaries: 0

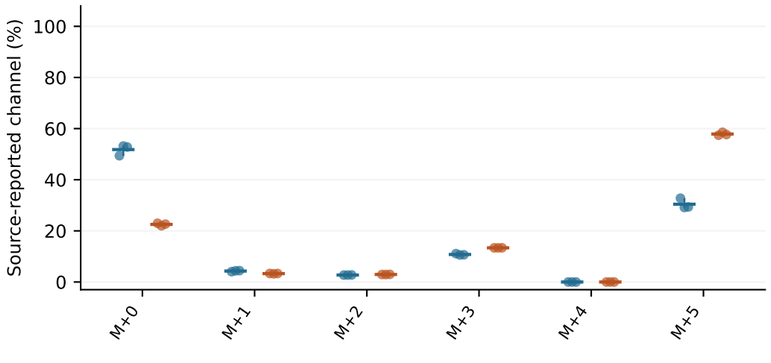

4F_P5C | P5C
Complete supplied vectors: 6/6
Normalization not validated; held summaries: 0

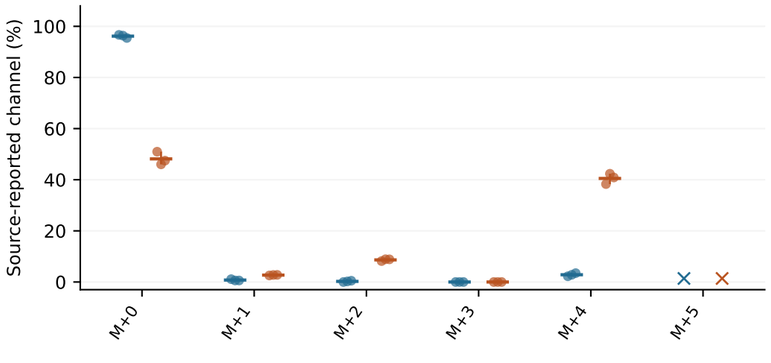

4F_Ornithine | Ornithine
Complete supplied vectors: 6/6
Normalization not validated; held summaries: 0

4F_Proline | Proline
Complete supplied vectors: 6/6
Normalization not validated; held summaries: 0

4F_Putrescine | Putrescine
Complete supplied vectors: 0/6
Normalization not validated; held summaries: 2
